

## Provision Map

This document aims to explain the 'Waves' of teaching provision available to pupils in our school. These are described as follows:

- Wave 1: Inclusive, universal teaching approaches
- Wave 2: Targeted, 'catch-up' provision
- Wave 3: Specialised intervention that is more specific to or personalised around the particular learning needs of the child

### What is Wave 1 Provision?

'Quality First Teaching' is exciting and engaging. Wave 1 or 'Quality First Teaching' is the effective inclusion of all pupils in high-quality everyday personalised teaching, which takes into account the learning needs of all the children in the classroom. It is achieved through appropriate differentiation through curriculum planning, learning tasks and teaching strategies. Such teaching will, for example, be based on clear objectives that are shared with the children and returned to throughout the lesson/learning activity; carefully explained new vocabulary; use of lively, interactive teaching styles that make maximum use of visual and kinaesthetic as well as auditory/verbal learning. Approaches like these are the best way to reduce, from the start, the number of children who need extra help with their learning or behaviour.

### What is Wave 2 Provision?

Wave 2 is targeted catch up provision for groups to 'put children back on course'. It describes specific, additional and time-limited interventions over and above what is offered at Wave 1. These interventions have clear entry and exit points and are often in the form of small-group intervention which aims to accelerate progress and enable children to 'catch up' and work at or above age-related expectations. Wave 2 interventions are not primarily SEN interventions. However, children included in Wave 2 interventions may be being monitored on the SEN Code of Practice.

### What is Wave 3 Provision?

Wave 3 describes deeper intervention, offering more specialised provision if Wave 2 hasn't worked. Children at Wave 3 may have particular needs related specifically to maths or literacy, or needs associated with other barriers to learning. Provision at Wave 3 is likely to draw on specialist advice. It may involve the adjustment of learning objectives and teaching styles and/or individual support. It aims to reduce gaps in attainment and facilitate greater access to Waves 1 or 2.

**Through high quality Teaching, Learning and Assessment we aim to deliver:**

- Highly focused lesson design with sharp objectives
- High demands of pupil involvement and engagement with their learning
- High levels of interaction and learning through dialogue
- Appropriate use of teacher questioning, modelling and explaining
- An expectation that pupils will accept responsibility for their own learning and be able to work independently
- Regular use of encouragement and authentic praise to engage and motivate pupils
- Provision that is closely matched to the child’s individual needs
- Time bonded intervention that has clear objectives and identified outcomes
- Effective systems of monitoring to track children’s progress and development, responding quickly to children who are not making progress
- Good quality interventions that are tried and tested, and train our staff to deliver these to the highest possible level
- Good communication with parents about the impact of any interventions their child has received

**The tables below show provision at Waves 1, 2 and 3 for each area of potential need identified by the 2014 Special Education Needs Code of Practice.**
